## MOJO History

Mojo was formed in November 2000 by Lead Singer Grant Sullivan and then Lead Guitarist Frazer Jones. After a year together as Mojo, Frazer moved on to form his own band and was replaced by Chris Cresswell.

Mojo use midi file backing tracks created by Grant and other programmers, and play the guitar parts live.

This band has become the most sought after band in the country for weddings and bithdays!

Grant and Chris are constantly travelling all over the country to do gigs, and always leave the client with nothing but good things to say!

In the past few years I have had the pleasure of working with Grant and Chris of the band Mojo. Not only have I found them professional and entertaining but fun and creative, catering their playlist to the guests attending the many various functions that I have shared their company.

Their repertoire is wide ranging and I would not hesitate in putting their name forward to any prospective client who is looking for that little extra with a live band.

Best Wishes

I have worked with Grant Sullivan and MOJO many times over the years and have always been completely satisfied in my dealings with them. They are a fantastic covers band and are very easy to work with. They are very professional and nothing is ever a fuss or bother. I would not hesitate to use them in the future and recommend them to others.

Kind Regards

Mojo are a band made up of two very talented musicians, the band itself is guitar based and utilises sequence backings to augment their sound. From time to time they diversify depending on the mood of the song to an unplugged style and one of the musician's moves onto the bass guitar.

Mojo are also very strong vocally with the lead vocalist (Grant Sullivan) having one of the best commercial voices in the country.

They have a very wide repertoire of songs to suit just about any occasion and are experienced enough to read what the audience wants to hear and to change styles accordingly. Mojo are very professional in their work ethic and always give value for money.

I have worked with them on a number of occasions and have employed them on others and can recommend them highly to any prospective employer. I am also only too happy to give a verbal reference if required.

Yours sincerely  
Frankie Stevens

We have worked with both Mojo and GSE Audio over the past few years and have found them to be most professional and entertaining.

On a musical level Mojo appeal to a wide demographic and are more than capable of entertaining any audience from Corporate to outdoor festival. Having a wealth of experience on the stage they immediately put the audience at ease and also have a great selection of tunes in their repertoire.

On a production level we have hired GSE Audio to provide AV equipment for The BeatGirls many times. Most of our engagements are high profile Corporate Events where excellent sound and lighting is a required along with equipment that looks slick - GSE has delivered without fail every time.

I would have no hesitation in recommending both Mojo and GSE audio for any event and as stress levels often run high whilst organisation takes place it's great to know that you have an act upon which you can fully rely. Please contact me direct if you would like to discuss this reference further.

Yours Sincerely  
ANDREA SANDERS

Hi Grant,

Thanks for playing at our wedding on Saturday night. You guys were superb! We have had so many comments from people that you guys were fantastic and that it's the first time people have been to a function where the dance floor was full all night.

Everything on Saturday went absolutely how we wanted and you guys were the icing on the cake, no pun intended.

Lots of people have asked us about you and I have passed on your contact details. Mum and dad went to the Sting concert on Thursday night and reckon that you sang the Police songs better than they had!!

If we ever need a band again you guys are it! We couldn't have asked for more.

Thanks again Mojo, you made our night and we are more than happy to recommend you to any potential clients!
